DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven Becker on July 11, 2006.

2. The application has been amended as follows:

In the title

The title has been amended to "Plasma Processing System In Which A Wafer Is Retained By An Electrostatic Chuck"

In the specification

On page 6, line 21, deleted "prove", inserted --probe--.

In the claims

Claims 9-18 are cancelled.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art, either singly or in combinations, fails to anticipate or render obvious a plasma processing system comprising: a processing chamber, a pair of electrodes, a RF feeding apparatus, a retaining/removal apparatus, and a detection apparatus for detecting the electrostatic-chucking state of the substrate and for detecting-removal state of electrical charges from the substrate, **on the basis of variations in impedance arising between the sample table and the substrate.**

With regard to the remand from the Board of Appeals (04-26-06), the Examiner agrees with the Board of Appeals that 112 6th paragraph is invoked. In Figure 1 (detection apparatus 11), page 6, lines 19-3, and page 7, lines 21-32 of the specification, the function of the detection apparatus is disclosed. Therefore, this functional limitation is given patentable weight and thus overcomes the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michelle Crowell whose telephone number is (571) 272-1432. The examiner can normally be reached on M-F (9:30 -6:00).
